

CTW09 - 8th Cologne-Twente Workshop on Graphs and Combinatorial Optimization

June 2-5, 2009, Paris (France)

Call for papers

The Cologne-Twente Workshop on Graphs and Combinatorial Optimization 2009 welcomes contributions on theory and applications of discrete algorithms, graphs and combinatorial structures in the wide sense. CTW09 will be organized by *LIX, École Polytechnique*, and will take place at the *Conservatoire National d'Arts et Métiers (CNAM)*, in the center of Paris.

Registration fee

EUR 140 if the payment is received by April 30, 2009, and EUR 190 afterwards. For PhD students, EUR 75 if received by April 30, 2009, and EUR 125 afterwards (PhD studentship proof required). The registration fee includes entry to all technical sessions, coffee-breaks, the social event and one copy of the workshop program and abstracts.

Abstract Submission

To submit a contribution, please prepare an extended abstract of at most 4 pages and submit it by EasyChair (details on [our website](#)) no later than March 1st, 2009, using the templates available on the website. The scientific committee will select the presentations for the workshop on the basis of the extended abstracts received.

Proceedings volume

A special issue of the journal *Discrete Applied Mathematics* is planned as a post-conference proceedings outlet.

Scientific committee

U. Faigle (University of Cologne), J.L. Hurink (University of Twente), L. Liberti (École Polytechnique - Paris), F. Maffioli (Technical University of Milan), G. Righini (University of Milan), R. Schrader (University of Cologne), R. Schultz (University of Duisburg-Essen).

Local organization

LIX and CNAM personnel. Email: ctw09.paris@gmail.com.
