

# Curriculum Vitae

Claudia D'Ambrosio

April 5, 2018

CNRS Chargée de Recherche 1ère classe and Chargée d'Enseignement at:

LIX, Laboratoire d'Informatique de l'École Polytechnique

91128 Palaiseau CEDEX, France

Office: LIX 1066 (Batiment Alan Turing, first floor)

E-mail address: dambrosio@lix.polytechnique.fr

Office phone n.: +33.1.77.57.80.06

## Personal Information and Education

From January 2006 to April 2009: **PhD student** in “Automatic Control and Operations Research” at the Dipartimento di Elettronica, Informatica e Sistemistica (DEIS), **University of Bologna** (Italy). Thesis “Application-oriented Mixed Integer Non-Linear Programming”, advisor Prof. Andrea Lodi.

21st March 2005: **Master** degree in Computer Science Engineering at the **University of Bologna** (Italy). Thesis: “Algorithms for the Water Network Design Problem” advisor Prof. Paolo Toth, co-advisors Prof. Andrea Lodi and Dr. Cristiana Bragalli.

## Awards

**2nd Robert Faure ROADEF prize** 2015 (this is the triennial prize of the French OR society, with three laureates at each edition).

**EURO Doctoral Dissertation Award** 2010 with the PhD Thesis “Application-oriented Mixed Integer Non-Linear Programming”, EURO Conference 2010, Lisbon (Portugal), 2010. It is the highest European recognition for a Ph.D. thesis in OR.

## Funded ongoing projects

- Principal Investigator and Supervisory Board member for CNRS, European Project (Marie Curie) “MINOA”, 2018-2021.

- Leader of the Programme Gaspard Monge pour l’Optimisation project “Shortest path problem variants for the hydro unit commitment problem”, funded by the Fondation mathématique Jacques Hadamard.
- Leader of the Project “Learning to solve Hydro Unit Commitment problems in France” sponsored by the Siebel Energy Institute seed grant, <http://www.siebelenergyinstitute.org/2016-research-grants/>.
- Participant of the Project “From resource to price: machine learning for Italian electricity network and market” sponsored by the Siebel Energy Institute seed grant, <http://www.siebelenergyinstitute.org/2016-research-grants/>.

## Funded past projects

- Leader of the Programme Gaspard Monge pour l’Optimisation project “Decomposition and feasibility restoration for Cascaded Reservoir Management”, funded by the Fondation mathématique Jacques Hadamard.
- Participant of the Programme Gaspard Monge pour l’Optimisation project “Résolution de programmes polynomiaux, approche par relaxation quadratique convexe”, funded by the Fondation mathématique Jacques Hadamard.
- Management Committee member of the COST Action TD1207 Mathematical Optimization in the Decision Support Systems for Efficient and Robust Energy Networks ([http://www.cost.eu/domains\\_actions/ict/Actions/TD1207](http://www.cost.eu/domains_actions/ict/Actions/TD1207)).
- Leader of the Programme Gaspard Monge pour l’Optimisation project “Optimality for Tough Combinatorial Hydro Valley Problems”, funded by the Fondation mathématique Jacques Hadamard (<http://www.lix.polytechnique.fr/~dambrosio/PGMO.php>).
- Participant of the European Project (Marie Curie) “MINO: Mixed Integer Nonlinear Optimization” (<http://www.mino-itn.unibo.it/>).
- Participant of the ANR jecj project “ATOMIC: Air Traffic Optimization via Mixed Integer Computation” (<http://www.recherche.enac.fr/~cafieri/atomic.html>).

## Professional Experience

From October 2015: **senior research scientist** (chargée de Recherche 1ere classe) at CNRS in the LIX, École Polytechnique (France).

From September 2014: **adjunct assistant professor** (chargée d’enseignement) at École Polytechnique (France).

From October 2011 to September 2015: **research scientist** (chargée de Recherche 2eme classe) at CNRS in the LIX, École Polytechnique (France).

From November 2010 to August 2011: **post-doc** in “Algorithms and techniques for MINLP problems with a special attention to optimization problems for unit commitment, scheduling and distribution of electric power” at the Dipartimento di Elettronica, Informatica e Sistemistica (DEIS), University of Bologna (Italy).

From May to October 2010: **post-doc** in “Mixed Integer NonLinear Programming” at the Industrial and System Engineering Department (ISyE), University of Wisconsin - Madison (U.S.A.).

From May 2009 to April 2010: 1-year **post-doc** in “Algorithms and techniques for MINLP problems with a special attention to optimization problems for unit commitment, scheduling and distribution of electric power” at the Dipartimento di Elettronica, Informatica e Sistemistica (DEIS), University of Bologna (Italy).

From May 2008 to July 2008: **consulting** for OPTIT on a project with Hera Comm on the optimization of energy cogeneration plants under the supervision of Prof. Andrea Lodi.

From July 2007 to September 2007: working as **co-op/intern** at IBM TJ Watson Research Center (Yorktown, NY) under the supervision of Dr. Jon Lee and Dr. Andreas Wächter on the research project “Mixed Integer Nonlinear Programming”.

From 2006: **tutoring** in Operations Research (undergraduate and master level).

From 2006 to 2009: **PhD student** in “Automatic Control and Operations Research” at the Dipartimento di Elettronica, Informatica e Sistemistica (DEIS), University of Bologna (Italy).

From July 2005 to December 2005: **collaboration** with the Operations Research group of the “Dipartimento di Elettronica, Informatica e Sistemistica (DEIS)” of the University of Bologna for the development of algorithms for the Waste Management Problem (UE Project Integrated Urban Waste-Management Model (IUWMM)).

From April 2005 to June 2005: **collaboration** with the Operations Research group of the “Dipartimento di Elettronica, Informatica e Sistemistica (DEIS)” of the University of Bologna for the development of algorithms for the Capacity Planning Problem (UE Project PARTNER).

## Publications

### International Journals

1. L. Mencarelli, C. D’Ambrosio. Complex Portfolio Selection via Convex Mixed-Integer Quadratic Programming: A Survey, **International Transactions in Operational Research** (accepted).
2. P.-L. Poirion, S. Toubaline, C. D’Ambrosio, L. Liberti. An algorithm for

- bilevel programming, with applications to smart grids and social networks, **Discrete Applied Mathematics** (accepted).
3. C. D’Ambrosio, F. Furini, M. Monaci, E. Traversi. On the 0-1 Product Knapsack Problem, **Optimization Letters** (accepted).
  4. Y. Sahraoui, P. Bendotti, C. D’Ambrosio. Real-world hydro-power unit-commitment: dealing with numerical errors and feasibility issues, **Energy** (accepted).
  5. S. Cafieri, C. D’Ambrosio. Feasibility Pump algorithms for aircraft deconfliction with speed regulation, **Journal of Global Optimization** (online first, <https://doi.org/10.1007/s10898-017-0560-7>).

22. C. D'Ambrosio, Methods and Algorithms for Solving Non-Convex MINLP Problems, IBM T.J. Watson Research Center. Yorktown Heights, USA, September 2007.

## Conference Talks

1. C. D'Ambrosio, A. Frangioni, C. Gentile. Strengthening Convex Relaxations of Mixed Integer Non Linear Programming Problems with Separable Non Convexities. GOW'16, Braga, Portugal, September 2016.
2. C. D'Ambrosio, J. Linderoth, J. Luedtke, J. Schweiger. Strong Valid Inequalities for the Standard Pooling Problem, ICCOPT 2016. Tokyo, Japan, August 2016.

3. C. D'Ambrosio, J. Linderoth, J. Luedtke, A. Miller. Valid Inequalities for the Pooling Problem, ECCO 2015. Catania, Italy, May 2015.
4. C. D'Ambrosio. Presentation of the 2me Prix Robert Faure 2015, RoadeF 2015. Marseille, France, February 2015.
5. A. Conn, C. D'Ambrosio, L. Liberti, C. Lizon, D. Sinoquet, K. Vu Khac. A trust region method for solving grey-box MINLP, INFORMS 2014. San Francisco, USA, November 2014.
6. C. Buchheim, C. D'Ambrosio. A branch-and-bound method for box constrained integer polynomial optimization, IFORS 2014. Barcelona, Spain, July 2014.
7. C. Buchheim, C. D'Ambrosio. A Branch-and-Bound Method for Box-Constrained Mixed-Integer Polynomial Optimization Using Separable Underestimators, RoadeF 2014. Bordeaux, France, February 2014.
8. C. Buchheim, C. D'Ambrosio. New underestimators for box constrained integer polynomial optimization, INFORMS 2013. Minneapolis, USA, October 2013.
9. C. Buchheim, C. D'Ambrosio. A fast exact method for box constrained polynomial optimization, ECCO 2013. Paris, France, May 2013.
10. W. van Ackooij, C. D'Ambrosio, G. Doukopoulos, A. Frangioni, C. Gentile, F. Roupin, T. Simovic. Optimality for Tough Combinatorial Hydro Valley Problems, RoadeF 2013. Troyes, France, February 2013.
11. C. D'Ambrosio, A. Lodi, S. Martello, R. Rovatti. Optimistic modeling of non-linear optimization problems by mixed-integer linear programming, ISMP 2012. Berlin, Germany, August 2012.
12. C. D'Ambrosio, A. Lodi, S. Martello, R. Rovatti. Optimistically Approximating Non-linear Optimization Problems through MILP, EURO 2012. Vilnius, Lithuania, July 2012.
13. C. D'Ambrosio, A. Frangioni, L. Liberti A. Lodi. Extending Feasibility Pump to nonconvex mixed integer nonlinear programming problems, RoadeF 2012. Angers, France, April 2012.
14. C. D'Ambrosio, A. Frangioni, L. Liberti A. Lodi. Feasibility Pump algorithms for nonconvex Mixed Integer Nonlinear Programming problems, APMOD 2012. Paderborn, Germany, March 2012.
15. C. D'Ambrosio, J. Linderoth, J. Luedtke. Valid Inequalities for the Pooling problem with Binary Variables, IPCO Conference. Armonk, NY, USA., June 2011.
16. C. D'Ambrosio, J. Linderoth, J. Luedtke. Pooling problem with binary variables, SIAM Conference on Optimization. Darmstadt, Germany, May 2011.

17. C. D'Ambrosio, J. Linderoth, J. Luedtke. Valid inequalities for the pooling problem with binary variables, XV International Workshop on Combinatorial Optimization. Aussois, France, January 2011.
18. C. D'Ambrosio, J. Linderoth, J. Luedtke, A. Miller. Pooling Problems with Binary Variables, Modeling and Optimization: Theory and Application (MOPTA) Conference. Bethlehem, USA, August 2010.
19. C. D'Ambrosio. Application-oriented Mixed Integer Non-Linear Programming, 24th European Conference on Operations Research. Lisbon, Portugal, July 2010.
20. C. D'Ambrosio, S. Martello. A heuristic algorithm for the general nonlinear separable knapsack problem, European Workshop on Mixed Integer Nonlinear Programming. Marseille, France, April 2010.
21. C. D'Ambrosio, J. Lee, A. Wächter. An exact algorithm for separable non-convex MINLPs, XIV International Workshop on Combinatorial Optimization. Aussois, France, January 2010.
22. C. D'Ambrosio, A. Frangioni, L. Liberti, A. Lodi. A Feasibility Pump Algorithm for Non-Convex Mixed Integer Non-Linear Programming Problems, XL AIRO Annual Conference. Siena, Italy, September 2009. (Invited Session organized by Andrea Lodi and myself.)
23. C. D'Ambrosio, A. Lodi. Application-oriented Mixed Integer Non-Linear Programming, XL AIRO Annual Conference. Siena, Italy, September 2009.
24. C. D'Ambrosio, J. Lee, A. Wächter. A global-optimization algorithm for mixed-integer nonlinear programs having separable non-convexity, 17th Annual European Symposium on Algorithms (ESA). Copenhagen, Denmark, September 2009.
25. C. D'Ambrosio, J. Lee, A. Wächter. An Algorithmic Framework for Separable Non-convex MINLP, 20th International Symposium of Mathematical Programming (ISMP). Chicago, USA, August 2009. (Invited Session organized by Pietro Belotti.)
26. C. D'Ambrosio, A. Lodi, S. Martello. On the piecewise linear approximation of functions of two variables in MILP models, AIRO Winter 2009. Cortina d'Ampezzo, Italy, January 2009.
27. C. D'Ambrosio, M. Fischetti, A. Lodi, A. Wächter. Finding Mixed-Integer Linear Solutions through Non-Linear Programming, XXXIX AIRO Annual Conference. Ischia, Italy, September 2008.
28. A. Borghetti, C. D'Ambrosio, A. Lodi, S. Martello. MILP techniques for solving hydro scheduling and unit commitment problem, XXXIX AIRO Annual Conference. Ischia, Italy, September 2008.
29. C. D'Ambrosio, J. Lee, A. Wächter. An Algorithmic Framework for a Class of Non-Convex Minlp Problems, SIAM Conference on Optimization 2008. Boston, USA, May 2008.

30. A. Borghetti, C. D’Ambrosio, A. Lodi, S. Martello. MILP Techniques for Solving Hydro Scheduling and Unit Commitment Problems, 2nd FIMA International Conference. Champoluc, Italy, January 2008.
31. C. Bragalli, C. D’Ambrosio, J. Lee, A. Lodi, P. Toth. An MINLP solution method for a Water Network Problem, XXXVII AIRO Annual Conference. Cesena, Italy, September 2006.

## Posters

1. Wim van Ackooij, Claudia D’Ambrosio, Grace Doukopoulos, Antonio Frangioni, Claudio Gentile, Frederic Roupin, Youcef Sahraoui, and Tomas Simovic. Optimality for Tough Combinatorial Hydro Valley Problems. PGMO Opening Conference, Palaiseau, France, October 2013.
2. Wim van Ackooij, Claudia D’Ambrosio, Grace Doukopoulos, Antonio Frangioni, Claudio Gentile, Frederic Roupin, and Tomas Simovic. Optimality for Tough Combinatorial Hydro Valley Problems. PGMO Opening Conference, Palaiseau, France, September 2012.
3. C. D’Ambrosio, A. Frangioni, L. Liberti, A. Lodi. On Interval-subgradient and No-good Cuts. MIP 2010 Workshop on Mixed Integer Programming. Atlanta, USA, July 2010.
4. C. Bragalli, C. D’Ambrosio, J. Lee, A. Lodi, P. Toth. Water Network Design by MINLP. IMA Workshop on Mixed-Integer Nonlinear Optimization: Algorithmic Advances and Applications. Minneapolis, USA, November 2008.
5. C. D’Ambrosio, M. Fischetti, A. Lodi, A. Wächter. Non-Linear Programming based heuristic for Mixed-Integer Linear Programming. MIP 2008 Workshop on Mixed Integer Programming. New York, USA, August 2008.

## Editorial Activities

Associate Editor of **Optimization Methods & Software** (since September 2016).

Associate Editor of **Optimization and Engineering** (since July 2016).

Guest Editor of **EJOC (EURO Journal on Computational Optimization)** for a special issue on “Nonlinear and Combinatorial Methods for Energy Optimization”.

Associate Editor of **4OR – A Quarterly Journal of Operations Research** jointly published by the Belgian, French, and Italian Operations Research Societies (since June 2014).

## Professional Duties

Poster Award Committee member at MIP Workshop 2017, Montréal, Canada (06/2017).

President of the Ph.D. awarding committee of Faisal WAHID, École Polytechnique (06/2017).

Recruitment committee member for a Assistant Professor position at the Paris Dauphine (05/2017).

Recruitment committee member for an adjunct assistant professor position (chargée d'enseignement) at École Polytechnique (04/2017).

Scientific committee co-chair of the Mathematical Optimization in the Decision Support Systems for Efficient and Robust Energy Networks Final Conference 29/31 March 2017 Modena (Italy)

Recruitment committee member for a Professor position at the ENSTA (2016).

Head of Program "Optimisation", École Polytechnique (since academic year 2015-2016).

Chef d'équipe (team leader) of the SYSMO team, LIX, École Polytechnique (2014-2017).

Project Board Member of TREND-X, Transdisciplinary analysis of Renewable Energies at École Polytechnique (since December 2014).

Organizing committee member of MINO/COST PhD School 2016.

Recruitment committee member for a Maitre de Conference position at the Laboratoire Jean Kuntzmann, Grenoble (2015).

Member of the Ph.D. awarding committee of Sellé Touré, Université de Grenoble (October 2014).

Recruitment committee member for a Maitre de Conference position at CNAM (2014).

Committee member of the Award for the Best EJOR Paper (EABEP) 2014.

Scientific committee member of ROADEF 2014.

Co-chair of the COST Workshop on Mixed Integer NonLinear Programming (CWMINLP) 2013.

Selection committee member for the LIX-Qualcomm-Carnot postdoc 2013-14.

Organizer of the Mixed-Integer Non Linear Programming stream at the EURO-

INFORMS 2013.

Organizer of Mixed Integer Programming (MIP) workshop 2012.

Organizer of the Mixed-Integer Non Linear Programming stream at the EURO 2012.

Organizer of many sessions at the AIRO Annual Conference.

## Scientific Community Contribution

Contributor of open-source solver ROSE (COIN-OR).

Contributor of open-source solver BONMIN (COIN-OR).

## Teaching Experience

Responsible for the course: **Big Data** (INF442), École Polytechnique, France for the academic years 2017-2018.

Assistant for the course: **Big Data** (INF442), École Polytechnique, France for the academic years 2014-2015, 2015-2016, 2016-2017.

Co-responsible for the course: **Initiation to Research**, Master Parisien de Recherche Opérationnelle, France for the academic year 2013-2014, 2014-2015, 2015-2016, 2016-2017.

Lecturer and responsible for the course: **Advanced Mathematical Programming** (PMA), Master Parisien de Recherche Opérationnelle, France for the academic year 2012-2013, 2013-2014, 2014-2015, 2015-2016, 2016-2017.

Assistant for the course: **Constraint Programming and Mathematical Programming** (INF580), École Polytechnique, France for the academic year 2013-2014, 2014-2015.

Lecturer for the course: **Introduction to C++** (INF585), École Polytechnique, France for the academic year 2012-2013.

Lecturer for the course: **Optimization in Health Care** of the Master in Ingegneria Clinica, COFIMP, Bologna (together with Professor Silvano Martello) for the academic years 2008-2009/2009-2010/2010-2011.

Tutor for the course: **Operations Research M** with Professor Silvano Martello at the Faculty of the Engineering of the University of Bologna (Italy) for the academic year 2009-2010/2010-2011.

Tutor for the course: **Fundamentals of Operations Research L-A** with

Professor Silvano Martello at the Faculty of the Engineering of the University of Bologna (Italy) for the academic years 2006-2007/2007-2008/2008-2009/2009-2010.

Tutor for the course: **Operations Research L-S** with Professor Silvano Martello at the Faculty of the Engineering of the University of Bologna (Italy) for the academic years 2006-2007/2007-2008/2008-2009.

Tutor for the course: **Lab of Optimization Tools L** with Professor Andrea Lodi at the Faculty of the Engineering of the University of Bologna (Italy) for the academic years 2006-2007/2007-2008/2008-2009.

Tutor for the course: **Lab of Operations Research L-A** with Professor Andrea Lodi at the Faculty of the Engineering of the University of Bologna (Italy) for the academic years 2006-2007/2007-2008/2008-2009.

## Languages

Italian: mother tongue.

English: good knowledge.

French: B2.

## Computer Skills

Programming Languages: C, C++, Java, JSP.

Operating Systems: Linux, Windows.

Software for Optimization: AMPL, Arena, COIN-OR solvers, Cplex, GAMS, Julia, JuMP, LaTeX, Matlab, MPL, Porta, SCIP.

## PhD Students

### Current

Gabriele Iommazzo: PhD co-advisor.

Luca Mencarelli: PhD co-advisor (European Project MINO).

### Past

Olivier Wang: PhD co-advisor (thesis CIFRE with IBM).

Youcef Sahraoui: PhD co-advisor (thesis CIFRE with EDF).

Claire Lizon: PhD co-advisor (thesis CIFRE with IFPEN).

Gabriele Iommazzo: co-advisor of the Master thesis in Master of Science in Business Informatics (2017). Now PhD student at École Polytechnique.

Angelo Di Zio: co-advisor of the Master thesis in Computer Science Engineering (2012). Now at Ferrari S.P.A.

Enrico Galassi: co-advisor of the Bachelor thesis in Computer Science Engineering (2011).

Simone Bacchilega: co-advisor of the Bachelor thesis in Computer Science Engineering (2011).

Michele Dinardo: co-advisor of the Master thesis in Computer Science Engineering (2010). Now at KPMG.

Gianluca Costa: co-advisor of the Bachelor thesis in Computer Science Engineering (2009). Now at YOOX Group.

Paolo Magini: co-advisor of the Master thesis in Industrial Engineering (2006). Now at Reply.
