Sophia KNIGHT

S. Knight, R. Mardare and P. Panangaden. *Combining Epistemic Logic and Hennessy-Milner Logic*, in Dexter Kozen's Festschrift published as *Logic and Program Semantics*, Springer, LNCS 7230, eds. Robert Constable and Alexandra Silva, pp. 219-243, 2012.

K. Chatzikokolakis, S. Knight and P. Panangaden. *Epistemic Strategies and Games on Concurrent Processes*. Proceedings of SOFSEM '09, Springer, LNCS 5404, pp. 153-166, 2009.

WORK EXPERIENCE

Postdoctoral Researcher March 2015-*present*
Uppsala University, Uppsala, Sweden

- Establishing an axiomatization and completeness proof for an infinitary modal logic, particularly in the setting of nominal transition systems
- Developing epistemic extensions of the Psi-calculus
- Teaching assistant for Artificial intelligence course, working with students in labs and homework sessions, lecturing and grading
- Chair for ICE workshop 2016- 2018, PC member and subreviewer for other conferences
- Co-supervising PhD Student Michell Guzmàn on topic "Distributed Knowledge in Spatial Constraint Systems," with Professor Frank Valencia at École Polytechnique, Palaiseau, France
- Parental leave: June 2017-present

Postdoctoral Researcher September 2013-January 2015
Université de Lorraine, Nancy, France
CNRS

- Developed logics for epistemic and strategic reasoning in multi-agent systems
- Informal supervisor for PhD student Aybüke Özgün on topic "Topological Semantics for Dynamic Epistemic Logics"
- Created an epistemic logic for asynchronous communication in concurrent systems
- Formulated an epistemic strategy logic
- Vice chair for ICE workshop, PC member and subreviewer for other conferences
- Parental leave: December 2014-April 2015

Ph.D. Student September 2010-September 2013
Ecole Polytechnique, Palaiseau, France
LIX, INRIA

- Developed a process calculus with spatial and epistemic modalities for reasoning about information flow in multi-agent distributed systems
- Supervised a masters student on an implementation of this process calculus
- Co-supervision of Masters student Andrés Felipe Barco Santa on topic "A Spatial and Epistemic Concurrent Constraint Interpreter"
- Worked on a complete axiomatization for a temporal epistemic logic
- Reviewed conference papers
- Funded by three year INRIA PhD grant

Research Assistant May 2006 - September 2010
McGill University, Montréal, Québec
School of Computer Science

- Developed a game semantics to understand and analyse the flow of information between interacting agents in security protocols

- Designed a temporal, epistemic logic to reason about the effects of actions on knowledge in multiagent settings
- Gave presentations on my work and wrote papers intended for publication

Teaching Assistant September 2006 - April 2009

McGill University, Montréal, Québec

- Courses: Theoretical Aspects of Computer Science, Intermediate Logic, History and Philosophy of Computing
- Prepared and delivered lectures during course instructor's absence
- Guided students during regular office hours and in writing
- Coordinated activities with professor and with other teaching assistants
- Graded students' work, prepared solutions, and provided feedback to students

Undergraduate Teaching Assistant September 2003 - April 2006

McGill University, Montréal, Québec

- Courses: Mathematical Logic, History and Philosophy of Mathematics, Discrete Mathematics, Discrete Structures
- Graded students' work, prepared solutions, and met with course professor regularly

HONOURS &
AWARDS

Prix de Thèse de l'École Polytechnique, for thesis "The Epistemic View of Concurrency Theory," 2014.

SUPERVISION

April 2016-September 2017: Cosupervisor for PhD student Michell Guzmán on topic "Distributed Knowledge in Spatial Constraint Systems," with Professor Frank Valencia at École Polytechnique, Palaiseau, France

January 2014 - December 2015: Informal cosupervisor for PhD student Aybüke Özgün on topic "Topological Semantics for Dynamic Epistemic Logics" with Professor Hans van Ditmarsch at Université de Lorraine, Nancy, France

Spring 2012: Cosupervisor for Masters student Andrés Felipe Barco Santa on topic "A Spatial and Epistemic Concurrent Constraint Interpreter" with Professor Frank Valencia at École Polytechnique, Palaiseau, France

TRAINING

Academic Teacher Training Course, full time five week pedagogics course, Uppsala University, Jan.-Feb. 2017, practical teaching experience currently being completed.

PROFESSIONAL
ACTIVITY

Co-chair, 11th Interaction and Concurrency Experience (ICE), 2018.

Co-chair, 10th Interaction and Concurrency Experience (ICE), 2017.

Program committee member, Formal Techniques for Distributed Objects, Components and Systems (FORTE) 2017.

Program committee member, Student Session, European Summer School in Logic, Language and Information, Logic and Computation track (ESSLLI StuS LoCo), 2017.

Co-chair, 9th Interaction and Concurrency Experience (ICE), 2016.

Program committee member, Student Session, European Summer School in Logic, Language and Information, Logic and Computation track (ESSLLI StuS LoCo), 2016.

Vice co-chair, 8th Interaction and Concurrency Experience (ICE), 2015.

Program committee member, Young Researchers Workshop on Concurrency Theory (YR-CONCUR), 2015.

Program committee member, Student Session, European Summer School in Logic, Language and Information, Logic and Computation track (ESSLLI StuS LoCo), 2014.

Program committee member, 7th Interaction and Concurrency Experience (ICE), 2014.

Reviewer for Journal of Applied Non-Classical Logics, CONCUR 2017, SR 2017, TARK 2017, CONCUR 2016, AAMAS 2016, ISMVL 2016, ESSLLI student session 2016, IC-TAC 2015, JLAMP special issue for ICE 2014, CLIMA 2014 special issue, AAI 2014, AiML 2014, CSL-LICS 2014, FSTTCS 2014, KR 2014, CONCUR 2013, CONCUR 2012, MSCS special issue for EXPRESS 2011, Studia Logica, and CONCUR 2010.

GRANTS

Workshop grant from Microsoft Research-INRIA Joint Centre to support 8th Interaction and Concurrency Experience workshop, June 2015, €1000.

Aide à la mobilité grant for the project “Common knowledge in systems of multiple computing agents,” July-August 2013, €1100.

Aide à la mobilité grant for the project “A formalism for reasoning about knowledge in systems of multiple computing agents,” November 2011, €1200.

PRESENTATIONS

Knowledge and Distributed Knowledge in a Constraint-based Process Calculus. Seminar for Theory Group, Queen Mary University, London, United Kingdom, April 2017.

Epistemic Strategy Logic Invited talk, Workshop on Formal Methods in Artificial Intelligence, University of Naples Federico II, Naples, Italy, February 2017.

Modal Logics for Artificial Intelligence: Logics of Knowledge and Strategic Behavior. Guest lecture for Artificial Intelligence course, Uppsala University, Uppsala, Sweden, October 2016.

Partial Information and Uniform Strategies: Developing an Epistemic Logic of Strategic Abilities. Seminar for Concurrency Group, Uppsala University, Uppsala, Sweden, August 2015.

A Strategic Epistemic Logic for Bounded Memory Agents. Workshop on Logics for Resource-Bounded Agents, ESSLLI. Barcelona, Spain, August 2015.

Partial Information and Uniform Strategies: Epistemic Issues in ATL. 15th International Workshop on Computational Logic in Multi-Agent Systems (CLIMA). Prague, Czech Republic, August 2014.

Asynchronous Public Announcement Logic. Prakash Fest. Oxford, United Kingdom, May 2014.

Spatial and Epistemic Modalities in Constraint-Based Process Calculi. Seminar at Institut de Recherche en Informatique et Systèmes Aléatoires (IRISA). Rennes, France, March 2014.

Spatial and Epistemic Modalities in Constraint-Based Process Calculi. Seminar for Preuves, Programmes et Systèmes (PPS) group at Université Paris-Diderot-Paris 7. Paris, France, February 2014.

The Epistemic View of Concurrency Theory. Forum des Jeunes Mathématicien-ne-s. Lyon, France, November 2013.

The Epistemic View of Concurrency Theory. Presentation for Computational Epistemic Logic in Lorraine (CELLO) group at Université de Lorraine. Nancy, France, October 2013.

Spatial and Epistemic Modalities in Constraint-Based Process Calculi. Highlights of Logic, Games and Automata (Highlights). Paris, France, September 2013.

The Epistemic View of Concurrency Theory. PhD Defense, Palaiseau, France, September 2013.

Spatial and Epistemic Modalities in Constraint-Based Process Calculi. Seminar for Theory for Mobile Processes group at Uppsala University. Uppsala, Sweden, May 2013.

Spatial and Epistemic Modalities in Constraint-Based Process Calculi. 23rd International Conference on Concurrency Theory (CONCUR). Newcastle, United Kingdom, September 2012.

Game Semantics and Epistemic Strategies for Concurrent Processes. Workshop on Games, Logic and Security (GIPSy). Rennes, France, November 2010.

Branching-time Temporal Epistemic Logic. 26th Conference on the Mathematical Foundations of Programming Semantics (MFPS). Ottawa, Canada, May 2010.

Epistemic Strategies and Games on Concurrent Processes. 35th International Conference on Current Trends in Theory and Practice of Computer Science (SOFSEM). Špindlerův Mlýn, Czech Republic, February 2009.

Games on Concurrent Processes: Epistemic Strategies. 6th International Workshop on Security Issues in Concurrency (SecCo). Toronto, Canada, August 2008.

A Logic of Anonymity. McGill University School of Computer Science Undergraduate Student Research Symposium, Montréal, Québec, August 2006.

A Probabilistic Logic. McGill INRIA Workshop for PRINTEMPS Project: Probability and Information Theory for modelling Security, Privacy and Secrecy. Montréal, Québec, June 2006.

Sophia KNIGHT

MASTER'S THESIS S. Knight. *Epistemic Strategies and Games on Concurrent Processes*. McGill University, June 2009.

ACTIVITIES Nordic Logic Sumer School, August 2017, Stockholm

Member, Concurrency group, Uppsala University

Member, Gender Equality group, Uppsala University

Former member, CELLO team, LORIA, Université de Lorraine

Former member, Comète Team, Ecole Polytechnique

European Summer School in Logic, Language and Information, August 2012, Opole, Poland

European Summer School in Logic, Language and Information, August 2011, Ljubljana, Slovenia

Former member, Reasoning and Learning Laboratory at McGill University

Former member, Printemps collaborative project (Probability and Information Theory for modelling Security, Privacy and Secrecy)

LANGUAGES English, native speaker.

French, proficient, C1 level.

Sophia KNIGHT
